

3/4/16

Kevin, Cori, and everyone,

Thank you for visiting Attitash Mountain Resort yesterday. It certainly was a great day to be on the snow with the sun and blue skies to show off our views.

Give your students a pat on the back. A number of indoor staff have mentioned how polite and pleasant the group was throughout the day. I'm sure outdoor staff saw the same behavior, I just haven't heard from them.

I'm enclosing a summer activities brochure for each mountain in case you do a summer trip. The Mt. Washington Valley offers a wide array of outdoor opportunities, along with many attractions.

We will look forward to another visit from Yellow Breeches next winter. In the meantime, we will be skiing here for another month, and possibly more at Wildcat. Winter continues in the mountains.

Enjoy your spring,
